

# FORCE™ 3.36

by Wet Technologies,® Inc.

## Making Industrial Grade Wet Blasting Affordable.

### The Most Important Features and Options From Our Legendary Manual Systems, Now in a 36" x 36" Design.

- Proprietary high concentration pumping system produces an even finish
- Closed loop filtered rinsing is standard
- Dust free blasting and rinsing
- Durable rotational molded corrosion proof cabinet
- Available HEPA air management

### WT36-RP3 FORCE: Ideal For Light Remanufacturing

Closed loop filtration system separates broken down media and particles with each cycle, and returns that water on-demand to the manual rinse gun AND pressurized window rinse.

Use with fine to coarse angular and spherical media.

Through our network of distributors, you receive a high level of factory trained support, along with a wide range of surface processing options. Backed by the best warranty available.

### Common Applications for Small to Medium Sized Parts:

- Deburr and radius edges
- Smoothing / reducing Ra values
- Etch prep for coatings and bonding
- Light remanufacturing and de-oiling
  - Cosmetic finishing
- De-rusting and de-oxidizing
- Blending machining marks

### Ready to Go! Economically Priced.

Contact us to schedule testing and request a proposal. Visit [wettechnologies.com](http://wettechnologies.com) to find your local distributor, or contact us directly.

BEFORE

AFTER

Buy American from Wet Technologies. We continue to support US Veterans.

## Ask Us About Factory Options, Starting With:

- Push button media monitoring
- Heated slurry and rinse to aid in oil separation and cleaning
- Booster and HEPA to atmosphere exhaust systems
- Stainless portable turn tables— 18" and 24" with covers

## Look for New Configurations in the FORCE Product Line.

## Wet Tech In-House Services:

Our laboratory provides testing and short run job shop processing.
